

Teleradio Padre Pio Launches Live Streaming Application for Apple iPhone

Italy, Roma, Oct. 15th 2009. Teleradio Padre Pio, the broadcasting station belonging to the Capuchin Friars Minor is today launching an iPhone application called "Padre Pio TV", which gives access to the channel programs live. iPhone users can now download the application from the App Store and watch the main celebrations which take place in the shrine of San Giovanni Rotondo, religious teachings, the Angelus, celebrations of Pope Benedict XVI as well as select activities of the Holy See and of the Bishops. The channel features messages and sermons contained in the Letters of Padre Pio, the Gospel and the Catholic Church.

Developed by mobile TV specialist Mobiclip, Padre Pio TV application provides high quality live viewing of the channel on Wi-Fi, 3G and Edge networks. The application is available worldwide on Apple App Store.

We have chosen the iPhone - Fr. Francesco Colacelli, president of Teleradio Padre Pio says - as a further instrument in the spreading of our television channel because of its great success in the global market of smartphones. In this way we give the possibility also to those who are always moving because of work, in every part of the world, to see Teleradio Padre Pio and to have access, even if only for a pause, to the teachings of Saint Pio, to the liturgical celebrations of the shrine and to our daily programs in general.

André Pagnac, CEO of Mobiclip, Inc. adds: "We are delighted to offer Teleradio Padre Pio the possibility to easily deliver their channel to the Apple iPhone worldwide and rapidly access the mobile market. Through the Mobiclip application we are making Teleradio Padre Pio available to millions of iPhone users."

-Ends-
